Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 04 August 2008.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Reissue Applications

Specification

1. The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the following is required: The specification should be amended to include proper support for the limitations of claim 5, specifically to include reference to "forming the seed layer by electrolytic plating".

Claim Formatting and Drawing Label Objections

2. The amendment filed 4 August 2008 proposes amendments to Claims 1, 24, 30, 38, 49 and 57 that do not comply with 37 CFR 1.173(b), which sets forth the manner of making amendments in reissue applications. A supplemental paper correctly amending the reissue application is required. Amended claim 1 is in an improper format, deletion must be between brackets not strikethrough. The entirety of claims 24, 30, 38, 49 and 57 must be completely underlined and contain no brackets. Fig. 3 must be labeled "AMENDED". See MPEP § 1453. A proper reply must include an amendment presenting the amended and new claims in proper format as well as proper label for Fig. 3, and a failure to do so would result in the reply being held non-responsive.

Supplemental Oath/Declaration Required

3. The amendments to all independent claims 1, 22 and 24 now include the more specific and substantive limitations of "without utilizing a lithographic mask" and the corrected element number in amended Fig. 3 which are corrected errors not covered by the original reissue oath/declaration. These two corrections made by applicant's amendment are examples of subject matter not covered by the original reissue oath/declaration.
4. In accordance with 37 CFR 1.175(b)(1), a supplemental reissue oath/declaration under 37 CFR 1.175(b)(1) must be received before this reissue application can be allowed.

Claims 1-62 are rejected as being based upon a defective reissue oath/declaration under 35 U.S.C. 251. See 37 CFR 1.175. The nature of the defect is set forth above.

Receipt of an appropriate supplemental oath/declaration under 37 CFR 1.175(b)(1) will overcome this rejection under 35 U.S.C. 251. An example of acceptable language to be used in the supplemental oath/declaration is as follows:

"Every error in the patent which was corrected in the present reissue application, and is not covered by a prior oath/declaration submitted in this application, arose without any deceptive intention on the part of the applicant."

See MPEP § 1414.01.

Allowable Subject Matter

5. The subject matter of claims 1-62 is allowable pending required submission of proper claim formatting and submission of a supplemental oath/declaration.

6. The following is a statement of reasons for the indication of allowable subject matter:

Regarding independent claims 1, 22 and 24, the prior art of record alone or in combination neither teaches nor makes obvious the invention of electroplating the second metal to the plating seed layer in the recess without utilizing a lithographic mask in combination with all of the limitations of claims 1, 22 and 24 respectively.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
